

Admixture Cost Comparison

Per Cubic Yard of Cement

Synthash, outperforms all the additives put together at less than 35% of the cost.

Other cost savings include:

- Reduction of water content by 12 to 30 percent
- Improvement in tensile strength and PSI for less cracking & repairs
- Reduction of labor output – superior workability, easier set up & cleanup

SynthAsh is a green technology which complies with LEED guidelines. The LEED (Leadership in Energy & Environmental Design) Green Building Rating System provides a national standard for defining an environmentally friendly, sustainable “green” building. Points awarded to building projects based on water savings, energy efficiency, materials, and indoor environmental quality.
